Abhishek Yadav

Summary

Web Developer with talent for creating robust, user-friendly websites and applications. Skilled in HTML, CSS, JavaScript, and modern frameworks, bringing innovative solutions to complex problems. Strong background in full stack development, collaborating seamlessly with design and product teams to deliver high quality digital experiences. Committed to optimising performance and enhancing user engagement, ensuring every project exceeds client expectations.

Education

September 2022-September 2026

Bachelor of Technology

Indian Institute of Information

Technology Senapati, Manipur

Experience

12/2022 - 12/2023

Engify, Web Developer

Abhishek | Mnaipur, India

- Utilised JavaScript, HTML and CSS to create interactive and visually appealing web pages.
- Participated in code reviews, contributing to the improvement of project quality and team standards.
- Managed back-end services and database integration, ensuring seamless data flow and storage solutions.
- Implemented techniques to improve load times and overall site performance.
- Developed mobile-first designs to ensure accessibility across devices.

Skills

- HTML/CSS: Semantic HTML5, CSS3 (Flexbox, Grid, Animations), Responsive Design
- JavaScript: ES6+ Features, DOM Manipulation, AJAX, Fetch API
- Frontend Frameworks: React.js, Angular, Vue.js, jQuery, Bootstrap, Tailwind CSS
- Backend Development: Node.js, Express.js, PHP, Python, Ruby, RESTful APIs, GraphQL
- Database Management: SQL (MySQL, PostgreSQL), NoSQL (MongoDB, Firebase), Database Design
- Version Control: Git, GitHub, GitLab, Branching and Merging
- Development Tools: Webpack, Babel, npm, Yarn, Code Editors (VS Code, Sublime)
- Testing and Debugging: Unit Testing (Jest, Mocha), End-to-End Testing (Cypress, Selenium), Chrome DevTools
- Performance Optimization: Load Time Optimization, SEO Best Practices, Caching Strategies
- Deployment and Hosting: AWS, Heroku, DigitalOcean, CI/CD, Docker
- Programming Languages: JavaScript, Python, Java, C/C++
- Data Structures and Algorithms: Arrays, Linked Lists, Trees, Graphs, Algorithm Complexity
- Problem-Solving: Logical Reasoning, Coding Challenges (LeetCode, HackerRank)
- Software Principles: Object-Oriented Programming, Design Patterns, Agile/Scrum.

Additional Information

Founded a merchandise startup named Engily during my first year of engineering, specializing in engineering-themed apparel and accessories. Led the development of product designs, managed supplier relationships, and implemented marketing strategies through social media platforms. This experience honed my entrepreneurship, project management, and customer engagement, while fostering a strong understanding of market trends and consumer behavior.
